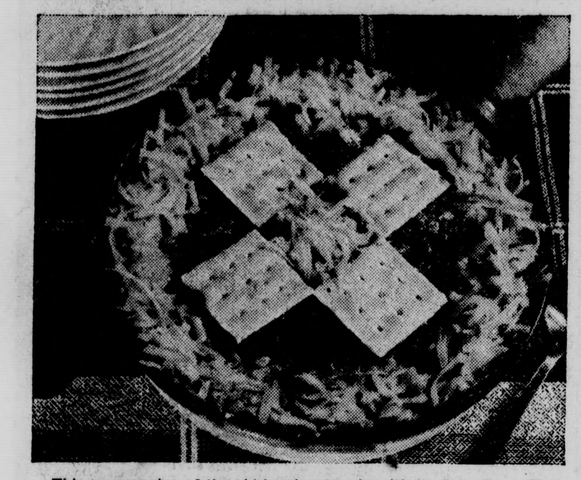
PENNYWISE CRACKER PIE



This new version of the old hamburger pie with its flaky Snow Flake topping may be made in the morning and baked just before serving time—excellent for autumn buffet suppers with a green salad and simple dessert.

RECIPE

½ cup minced onion
1 cup diced celery
1 pound ground round steak
2 teaspoons Worcestershire
Salt and pepper
2 cups grated cheese
1 No. 2½ can tomatoes
12 Snow Flake Crackers
Dash of Tabasco

Cook diced celery and minced onion in a very small amount of water—not more than ¼ cup—until tender. Fry ground round in hot fat just long enough to turn it grey in color. Add cooked celery and onions, seasonings, 1 cup of the grated cheese, tomatoes and mix well. Place ½ the meat mixture in the bottom of a greased casserole, cover with a layer of Snow Flake crackers (whole or crumbled) and put remaining meat mixture on top. Garnish top with Snow Flake crackers and remaining grated cheese. Bake in 350° oven for 30 minutes.

FORT PIERRE, S. D. (AP)—R. W. Mathieson, 91, fought Indians and "skinned" oxen across the Deadwood Trail during the wild '70s. The other day he made the trip again—in an ambulance airplane to Salem, Ore., to recuperate from illness that crippled his shooting hand.

New Parking Law Slated

Redwood City probably will have a simplified parking ordinance, within a month.

The prospective ordinance, embracing and consolidating the many parking regulations now in force, was introduced at a meeting of the council Monday and faces final passage two weeks hence.

Mission Trails Opens Offices in S. F.

The Mission Trails Exposition Commission has opened temporary offices in the Central Tower in San Francisco, Supervisor Fred E. Beer of San Mateo, president, announced today.

The commission will maintain offices until the assets of the counties represented in the Mission Trails building at the Golden Gate International Exposition have been determined.

These offices will also serve as temporary offices of the California Mission Trails Association, which were in the Mission Trails building on Treasure Island. The Mission Trails building and other state buildings will be torn down shortly.

Main offices of the California Mission Trails Association, which represents the central coast counties, are in the Park Central building in Los Angeles.

MENLO PARK NEWS

MENLO PARK—Armistice Day will be observed by the local post of American Legion next Monday by a parade and a musical program at Memorial Park on Santa Cruz Ave. Two well-known speakers will be present to laud the achievements of World War soldiers. After the exercises a barbecue will take place at Recreation Park in O'Dea Field.

Mike Hara, the deposed first assistant fire chief of the Menlo Park Fire Department, is the possessor of a well-worded and highly complimentary recommendation from the three commissioners. Then why was he dismissed?

★ ★ ★

The Friday night whist parties at the Hall of the Nativity by the citizens of Runnymede are popular affairs. Those pretty maidens of that locality know how to make these gatherings pleasant.

★ ★ ★

Ninety per cent of the voters of Menlo Park came to the polls Tuesday, which shows a splendid spirit of patriotism in duty. When the electorate manifests such interest in governmental affairs the country will never go wrong. There was no local interest in the election and this speaks volumes for the voter to come out to register his choice for the presidency.

Roger Reynolds of Burlingame, owner of the Reynolds Nursery opposite Menlo Junior College, was killed in an automobile accident Monday while driving to Salinas on business. Mr. Reynolds came here 20 years ago to establish the nursery, consisting of 16 acres and hundreds of rare plants, shrubs, and flowers. It is said that Mr. Reynolds was about to consummate a sale of the choice property for a large sum. Mr. Reynolds was born in San Francisco 61 years ago. He spent his younger years as an employe of the San Francisco Post Office. He is survived by a wife and daughter.

J. McLaughlin, the enterprising local shoe dealer, has just received a large consignment of shoes from the East which he is selling at bed rock prices.

The corner lot on Ravenswood Ave. and El Camino Real is being cleared for the construction of an oil station for Standard Oil Co. When completed it will be the last of the big oil concerns to locate here.

Two representatives of an Eastern motion picture concern were in town Monday looking for a theater site. They were shown several choice property holdings. The men said their company would, if the site is acceptable, erect a $50,000 play house in Menlo Park.

Hunting on the local marshes is reported good. Large flights of canvas back and teal are arriving from the North and every hunter brings in the limit. Jack Feeley, Joe Walsh, Joe Prein and Mr. Hornbuckle are among the lucky ones.

ADMITS CHECK CHARGE

BURLINGAME — Jerry Vojdoga, 21-year-old San Francisco waitress held in jail here, admitted to police here, they said, that she had passed fictitious checks in several Bay Region and Peninsula communities. She said two men gave her the checks. Police arrested the girl Saturday in a local store where she tried to cash a worthless check.

Early Mormon Fort

In the heart of what was once known as the "Arizona Strip" is an old stone fort, relic of pioneer days. Located beside a wonderful spring of pure cold water it is a veritable oasis in the desert. During the early 60's the Mormons established a cattle ranch here and the fort was erected as protection from marauding Indians. It consists of two houses, each two stories high facing each other across a courtyard barred at each end by huge, heavy, double gates. Known as Pipe Springs National Monument it is 15 miles west of U. S. Highway 89 at Fredonia on the Arizona-Utah border.

BUY THE RIGHT SIZE
GAS CIRCULATING HEATER

Like head-size in hats there is a heat-size in Gas Circulating Heaters. The right size fits and one feels its instant comfortable rightness.

Too often folks buy a Gas Circulating Heater they guess will be all right. Such guesswork usually means getting a heater that is too small. Then when cold snaps put the temperature far below the comfortable seventies—that small size heaters blazes away "full-on" because it has no reserve capacity. And it takes an uncomfortable long time changing a chilly room into a comfortable warm room.

This month, dealers everywhere are displaying the latest in efficient, attractive, economical Gas Circulating Heaters. You'll be sure to find in their extensive selections a heater that is right for your need and right in a price that fits your budget. Let your dealer or this company help you with expert advice. Huge Order Placed For Ice Refrigerators

The U. S. Army has just placed orders for commercial ice refrigerators that if placed side by side would form a line seven and a half miles long and which will require an initial icing of more than 500 tons of iceman's ice.

These orders were split among many manufacturers whose facilities made production according to government specifications possible. One company alone, the Coolerator Co., is pledged to build 1200 units, 500 of which are 50 cubic foot capacity and 700 are of 65 cubic foot capacity. This order alone would form a line one and one-half miles long if placed side by side.

The orders accepted or pending indicate, according to Ed. G. Vail, secretary of the refrigerator manufacturers' group, that government orders may greatly limit production facilities for ice company models in the coming year, though all orders now on hand are scheduled for delivery long before the big Spring rush of domestic and commercial ice refrigerators begins.

Rural electrification has been extended to 100,000 of New York state's 168,000 farms.

Defenders May Win High School Diplomas

At the request of Principal William T. Van Voris of Burlingame High School, County School Supt. Pansy J. Abbott has forwarded to the state director of schools a request as to whether seniors called into military service will be granted high school diplomas automatically—as was the case in the World War.

Van Voris said that since graduation from high school is a matter under state control, the problem is not one to be decided by individual school boards, and a state ruling will be necessary. Van Voris said he favors the plans because boys entering military service will receive training that could be considered as essential as their last year in high school.

Missionary groups prefer to send into the field men from 23 to 30 years old; it is believed they learn native languages more readily than older workers.

TWO HELD AS BURGLARS

SAN BRUNO—Two San Francisco youths were in jail in San Bruno today facing burglary charges after San Bruno police caught them breaking into a service station at 3 a.m. The pair, Dorrell E. Taylor, 22, and Darrell E. Spurlock. 20. admitted they had broken into a Millbrae service station earlier in the night.

Master Plan for Development Of Park Areas Here Studied

A proposal to develop neighborhood playgrounds at a cost of at least $20,000 will be studied by the city council the next several weeks.

The program, referred to as a "master plan" by city officials, was presented to the council by the Redwood City Recreation Commission Monday night.

"That is a complete master plan," Councilman Henry W. Edmonds enthusiastically declared after hearing Chairman Andrew Spinas of the commission explain the proposed program.

Other members of the council concurred.

"I would like to have the commission send each member of the council a copy of that proposal," asserted Mayor Harold F. Anderson. "I would like the councilmen to study their copies preparatory to detailed discussion at our next meeting."

COPIES TO BE MADE

Spinas assured the body that copies would be prepared.

The recreation commission feels that a definite plan for establishment of neighboorhood playgrounds in the city should be launched with appropriate action to support the program, the council learned.

"We," began Spinas in a report read to the council, "present the following proposal for your consideration.

"1. An additional playground site in the westerly part of Redwood City in the Redwood Highlands and Oak Knoll Manor section. The following areas are listed as possibilities.

THREE POSSIBLE SITES

"Lots 13, 14, 15, 16, 17, 18, 19 20 in Block 37, Redwood Highlands, in the 1100 block on Hopkins Ave., between King and Lowell Sts., at an approximate cost of $12,000.

"Lots 1, 2, 3, 4, 16, 17, 18, and a portion of 15 in Block 2, Oak Knoll Manor, in the 1400 block on Brewster St., between Nevada and Opal Sts., at an approximate cost of $12,000.

"Lots 1, 2, 11 in Block 11, Oak Knoll Manor, between Alameda de las Pulgas and Westgate St., at an approximate cost of $5000.

"We propose that this playground be fenced and given suitable lawn and shrubs so as not to detract from the residential district. It should be so landscaped so as to present an attractive appearance from the adjoining property."

SCHOOL AREAS ALSO

"2. The rear part of Lincoln school campus facing on Arlington Rd., should be lighted, and equipped as a neighborhood play area.

"A part of the McKinley School campus should be lighted for a play area.

"A part of the John Gill School campus should be lighted for a play area.

"3. The Chestnut St. Playground may be enlarged by the purchase of lots 10, 11, 12. This might be fenced, shrubbed and lighted at an approximate cost of $6000.

"4 Fleishman Playground needs to be marginal landscaped.

"5. Hawes Park is in need of fencing. The children's play area should have more adequate lighting and the park should be further beautified by landscaping."

MORE TENNIS COURTS

"6. Building of two more double tennis courts and one single tournament court is recommended at Mezes Plaza.

"7. Fencing, shrubs and the equipment of a children's play area is recommended at Chestnut St., and Bay Rd.

"Baseball field and stands on the Recreation Area of 24 acres recently purchased should be developed.

"A committee of the recreation commission is making a study of the Redwood City Yacht Harbor, which also should be included in any comprehensive program of recreational development for the city.

"In considering the financial aspects of the program, the commission feels that any extensive capital outlays should be financed by a bond issue.

"However, provision should be made for adequate supervision of all play areas and other recreational facilities which the city might acquire."
